## DISCLAIMER

The existence of this website should not be construed in any direct or indirect manner as a solicitation for securities.

We cannot guarantee the completeness, timeliness or accuracy of the information contained in this web site. Nothing in this web site contains investment advice. Any decisions based upon the information contained in this web site are the sole responsibility of the user.

This site is for informational purposes only and is to be used only as a starting point for potential oil and gas investment considerations. Consult with tax advisor and legal counsel before you make any investment decisions regarding investments in oil and gas, 1031 exchanges or changes to your 401(k) or investments using your 401(k). In making an investment decision, investors must rely on their own examination of a partnership; which include the merits and risks involved, including the management, and any partnership agreements, or other written materials used to represent the investment for consideration of oil and gas direct investments. Oil and gas investments are subject to significant risk and are not suitable for all investors. Investments are generally subject to significant fees and expenses. An investment could result in partial or complete loss of the principal investment. Oil&Gas investments are speculative in nature, and are investments involving a high degree of risk. Persons considering these investments must be accredited, sophisticated, and qualified to make them.
